

MD Weaver “The Pest Reliever”
An Intelligent Approach to Integrated Pest Management
We want to be YOUR Pest Management Professional!

MD Weaver operates as an extension of your workforce in an ongoing effort to maintain a welcoming and hospitable environment for your tenants, customers, and staff. We use many tools and methods to preventing and solving pest and wildlife issues. Our Integrated Pest Management (IPM) Programs include the steps of Assessment, Monitoring, Action, Record Keeping, and Communication and Education.

MD Weaver scheduling and administrative staff is readily available and offer on-going support to our clients. Mark Weaver, Owner and President, is a Board Certified Entomologist and LEED Green Associate. He directly oversees MD Weaver’s programs and services and training of our Pest Control Technicians. We service many LEED Buildings and assist in the performance period as the site’s management and staff work toward a level in LEED Certification.

For 20 years MD Weaver has provided professional pest management service. Our team is made up of highly trained and experienced technical advisors, service advisors, and pest control technicians who implement the IPM principles at your managed sites. With ongoing training we pride ourselves in staying ahead of the curve in best practices in pest management.

MD Weaver is a Quality Pro and Green Pro Company and adheres to guidelines set forth which is contributing to a healthier environment for a building and site’s occupants and the greater community. Less than 3% of pest control companies are members of these organizations.

We offer this expertise to you and your organization in our programs and services tailored to fit the pest management needs at your facility.

As a Quality Pro, Green Pro Company MD Weaver’s technicians and staff operate under the strictest industry standards in hiring, training, on-going education, and daily operations. You can be assured of our professionalism and expertise in forming and implementing your IPM Plan.

Please contact us today to set a confidential appointment to assess your facility and propose tailored services.
